

Data sheet: TC-141

Product code : TC-141
Product name : Car DC Splitter 2 port
EAN code : 8716502016419

Do you have multiple devices which you want to be able to charge or supply from power in your car? Than the one connection you have is often not enough; if this connection is used for your navigation system you won't be able to charge your mobile phone or MP3.

Thanks to the TC-140 Car DC Splitter 2 port this problem belongs to the past. With the DC Splitter you can easily create 2 DC 12 volt connections in your car and operate or charge 2 mobile devices simultaneously.

Now you are able to use your navigation system and charge your mobile phone at the same time. This DC splitter is a welcome solution for the frequent traveler.
